SAYS GIRL HAS NOT FLOPED

Mother of Miss Rose Denies Daughter Is With Missing Whitman Dentist

"I do not believe for one moment that Dr. Goodspeed has taken my daughter away. I still believe that he is of the salt of the earth and has been driven away from his home by unhappiness there. I certainly have no enemy against him."

With these words Mrs. Harry Rose today refuted the report that her daughter Pearl, the pretty twenty-year-old Whitman girl, had eloped with Dr. P. L. Goodspeed, a young dentist.

Mrs. Goodspeed called upon Mrs. Rose at her home last evening, it developed today, and accused the missing daughter of having gone away with Dr. Goodspeed. Mrs. Rose admitted that she did not know where her daughter was, but declared that she was not with the dentist.

According to neighbors, when Dr. Goodspeed first went to Whitman about two years ago, he shared an office with Dr. Coughlin, a local dentist, and the girl was employed by both. Later Dr. Goodspeed removed to another office in the same building, and took the girl with him as his assistant.

Mrs. Rose declared that her daughter had known the dentist only one year, and not for four years, as had been stated.

"Mrs. Goodspeed showed me the letter," she said.

Butter 65 Cents, Top Notch Figure at Wholesale

Butter today reached its top notch price in the wholesale market—65 cents a pound for creamery extra. This represents the price in the strictly wholesale market. Exceptionally fancy fresh made butter brought even higher prices in small lots earlier in the week.

Higher prices even than 65 cents are anticipated within a few days owing to the fact that the production of butter during the winter months is always comparatively light.

2 SHIPS WITH 4,000 U.S. MEN Lapland and Minnekahda Bring American Soldiers Home From Europe

By International News Service.

New York, Dec. 4.—The transport Lapland, with 233 officers and 1,797 returning American soldiers aboard, arrived at quarantine this morning.

The Minnekahda with about 2,000 others arrived this afternoon, and the Owa, which left England with the Lapland, is also expected to arrive today.

The police boat Patrol, bearing the members of Mayor Hyman's committee to welcome home-coming troops, steamed down the bay to meet the Lapland.

The Sierra, with the first organized detachments from France, is scheduled to reach New York Saturday, but may be delayed until Monday because of stormy weather.

The White Star liner Celtic is due Friday or Saturday, with about 1,500 more troops from England and the Canadian Pacific liner Empress of Britain and the White Star liner Adriatic both sailing with troops from Liverpool on December 2.

The Lapland was lashed, tossed and beaten by a vicious northwest gale during practically the entire trip from Liverpool. There was only one death during the trip that of Lieutenant James R. McIlwaine of Denver, who succumbed to influenza.

The biggest wound during the voyage was in the hatchery where the Lapland was being trained in England when the armistice was signed. But there were a score or more others aboard who were veterans of the war.

CROWN PRINCE NOT LEGALLY EMPEROR

Ex-Kaiser's Abdication Decree Relinquishes Throne to Descendants—Allies Suspect Plot

London, Dec. 4.—The abdication of the German Emperor is expected to be published today, according to an Exchange Telegraph dispatch from Copenhagen. The decree, it was said, does not confer the Crown Prince's succession.

London, Dec. 4.—(By British Wire.)—The only effect of the ex-Kaiser's abdication is to make the Crown Prince King of Prussia, and therefore German Emperor until the German empire is formally dissolved.

Prussia's legal opinion expressed today.

Last Thursday's decision (the ex-Kaiser's decree of abdication) does not abolish the Prussian monarchy and still sets up a republic in Prussia. It is pointed out, that can be done only by formal revision of the Prussian constitution and that is

Copyright 1918, by Underwood & Underwood.

GLASS CHOSEN TO SUCCEED McADOO

New York, Dec. 4.—Representative Carter Glass of Virginia has been selected by President Wilson as Secretary of the Treasury to succeed William G. McAdoo, according to a member of the party that accompanied the President here today.

It is understood that the official announcement is being withheld until Representative Glass formally accepts the post.

GLASS Refuses Comment.

But Does Not Deny That He Is to Be Appointed

Washington, Dec. 4.—The fact that Representative Carter Glass of Virginia, chairman of the House Committee on Currency and Banking, had been selected by President Wilson to succeed William G. McAdoo as Secretary of the Treasury, occasioned no surprise in official circles here this afternoon.

Representative Glass' name had been mentioned in connection with the cabinet proposition since the day Mr. McAdoo's resignation was announced. In fact, it was stated confidentially at the White House that the Virginia Representative had been selected.

Representative Glass, however, declined to make any comment on his reported selection as the fiscal head of the nation. Although his name had not been offered to him, he refused this afternoon to say that he would be the next secretary.

"The matter of propriety prevents me from saying anything just now," he declared.

WARSHIPS GUARD WILSON SHIP

Paris, Dec. 4.—That President Wilson will enter Germany during his stay in Europe was regarded as virtually certain here today. Tentative arrangements made for the President include a review of certain American troops in company with General Pershing. The units will include veterans of the Marne, St. Mihiel and Argonne battles, now across the German boundary.

Arrangements are being made also to conduct Secretary Lansing and others on trips to scenes of the American victories. Colonel E. M. House is now able to spend a little time outdoors, and if his health permits he will meet the presidential party at Brest.

Hoboken, N. J., Dec. 4.—President Wilson sailed for Europe this morning to attend the peace conference, establishing a precedent in American history. The historic voyage began at 10:24 o'clock, when the former North German Lloyd liner, George Washington, bearing the President and a large party, began warping out from her pier.

Amid a tumult of noise from craft in the harbor and salutes from naval vessels, the big steamship slowly gathered speed as she proceeded down the bay, and at 11:15 was forging full speed ahead toward the shores of France.

The liner was conveyed by a squadron of war craft led, by the battleship Pennsylvania as she moved down the bay, while seaplanes, and

dirigibles hovered over the ship and her precious cargo.

RIOT OF COLOR.

Hoboken, Jersey City and Lower Manhattan were a riot of color with the flags of the allied nations hung from every staff and countless windows. Old Glory predominated, however.

Continued from First Page.

My husband wrote her," said Mrs. Rose. "It is there was not one word from my daughter. The report that she had left the house for good is absolutely false. I read the letter and Pearl was not there. I am sure it was as nearly as I can remember it, this was the letter."

CALLA WIFE JOURNAL. "The fact that my daughter's name is mentioned at all on this matter," Mrs. Rose declared emphatically, "is due only to the jealousy of Mrs. Goodspeed. Why she should say they are together I don't know. I know nothing of the Goodspeed's family affairs and do not care to. She is just a jealous woman, bringing this odium on my little girl, because she was mentioned by the dentist."

"I do not know where my daughter is, but I shall find out. My father and I shall visit her, possibly even town and city in the country. If necessary, I will go to the dentist and see the one and only object of our lives."

NEVER OF ALONE. "What," exclaimed Mrs. Rose, "my little girl has never been out one night that was unaccounted for in all her life. She has never been out of my sight. In Boston she does not know one street from another. She would not know what to do in a big city. Why, she may be where we have, trying to get away from us and not knowing how."

DEWENT HAS TWO CHILDREN. "Pearl is my little baby girl. No girl in Whitman ever had a better reputation than my little girl."

How Would You Like to Be?

By Morton Birge

A Christmas Basketeer.

How wonderful to be a child! Oh, time of youth and play, of simple wants and trusting love and freedom day by day, the time of appetite and health and happiness sublime, Oh, best of all, to be a child again at Christmas time!

But how about the child whose home is poor and bleak and bare, Whose food is scant, whose clothes are shabby and old, Whose appetite is kept on edge until it always aches, Whose one best Christmas hope is what the Christmas Basket brings?

No need to tell the tall tale. The poor are always here, More, more than ever, many have a Christmas without cheer. How would you like to be a child whose hungry Christmas Day? You wouldn't—No, then help the Fund along the Basket Way.

KELLOGG URGES LEAGUE OF NATIONS

Would Let Germany in Providing She Changed Her Policies

Washington, Dec. 4.—The time has come for the organization of a league of nations, if Germany forsakes the policies and aspirations that have guided her in the past and otherwise it must be a league of nations organized against her.

Senator Kellogg of Minnesota, thus expressed the majority view in the Senate this afternoon. Senator James Hamilton Lewis of Illinois, and Senator Borah of Idaho both have given notice of similar resolutions. Senator Kellogg daily opposed any scheme of a super-government. The league of nations, he said, must be the outgrowth of a treaty binding all the great powers, which shall provide for arbitration and consultation and for obligatory powers to submit disputes to arbitration. He opposed the idea that the decrees of the league of nations should be enforced by international police forces. "That there should be a world police or armed force is, in my judgment, impracticable and unwise," he said.

"The decrees of the arbitration tribunal should be enforced by the enlightened sentiment of mankind." While he believed it too much to hope that the world would be permanently at peace, Kellogg said the present point of view and the present effects in peace should not be lost.

"Should we hesitate now?" he pleaded. "While maintaining all our insinuations of our government and the right to control all our internal affairs, shall we hesitate to join in a league of nations which may have a lasting effect upon all generations to come?"

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of benefit to humanity. The latest application of the scientific research is the recommendation that it is necessary to attend to internal sanitation of the drainage system of the human body as it is the drain of the life.

Those of us who are accustomed to feel dull and heavy with our aches, splitting headache, stuffy from a cold, foggy, starchy breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the waste of the internal poisonous stagnant matter. Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone, stomach, liver and bowels, the previous day's indigestible waste, soluble and poisonous matter, thus cleansing, sweetening and purifying the entire alimentary canal, thus putting more food into the stomach. The waste of people who are bothered with constipation, biliousness, dizziness, headache, and other ailments are urged to give a quarter pound of Limestone Flushing Tablets. For very little, but sufficient to make anyone a prominent drink on the subject of internal sanitation.—Advertisement.

SALTS FINE FOR ACHING KIDNEYS

We eat too much meat which clogs kidneys, then the back hurts.

Most folks forget that the kidneys like the bowels, get sluggish and clogged and need a flushing occasionally. Now we have built-in and dual action in the kidney region, severe headache, rheumatic twinges, neuralgic, liver and stomach, sleeplessness and all sorts of bladder disorders. You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of J&J salts from any good druggist and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will start and flow. This famous salt is made from the finest of grapes and lemon juice, combined with lithia, and is harmless to health. Clogged kidneys stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

J&J Salts to harmonize: Inoperative, makes a delightful afternoon lithia-water drink which everybody should take now and then to keep their kidneys active, thus avoiding serious complications. A well-known local druggist says he sells lots of J&J Salts to folks who believe in preserving health, stating that it is only trouble.—Advertisement.

CHAPTER LIII
There was an unmarked threat in every word. Every hand behind me. Now she was ready to collect—and to collect in full. She read my silence to suit herself.

Very Wearied
I was wearied by the whole situation. I nodded to the waiter and took the check, in spite of Flevie's protests that she had not finished her dinner. I took the check, in spite of Flevie's protests that she had not finished her dinner.

Science Solves the Butter Problem with Troco Made from the White Meat of Coconuts

Just when the price of butter threatens to make it an unobtainable luxury, science perfects TROCO, the most vegetable butter made from the white meat of coconuts, churned with pasteurized milk. It tastes like the finest creamery butter and is as wholesome and pure. Because of old laws, made before this discovery, we are compelled to label this nut-made butter as oleomargarine. But it contains no animal oils. TROCO is simply vegetable fat, churned with milk for the butter taste. Yet this appetizing combination costs no more than the best oleomargarine.

TROCO
TROCO has the good qualities of fine creamery butter. The principal difference you will notice is the cost. It is nutritious and easily digested. It possesses the full value needed for cooking. TROCO, when served, has butter's golden color, because your dealer supplies you with the same vegetable coloring used by all butter makers. Used in cooking, it gives the same results as butter, except that it goes farther. Cakes should remember this and reduce the amount. Write for Free Cook Book.

Made in the Country
The crowning attraction of Troco is this: It isn't a city-made, factory product, but comes from the country, from a clean little town in the Berkshire foothills where the Troco factory is the only industry. Order Troco from your dealer by name.

Fletcher's Tea
"Always in Good Taste"
The quality of Fletcher's Tea is uniformly the best. You are always sure of having the tea you like most on you use Fletcher's.
Today is the day to try this delightful tea if you haven't before.
Your grocer has it.

Fat That Shows Soon Disappears
Prominent fat that comes and stays, where it is not needed is a burden to a hindrance to activity. A happy man can take off the fat where it shows by taking after each meal and a little more before bed. The fat is not a burden to a hindrance to activity.
